

REAL – TIME REMOTE CAMERA STREAMING

OPGAL EYECGAS APP

The future of optical gas imaging—right in your hands.

Take your OPGAL EyeCGas OGI experience mobile. The EyeCGas App transforms your phone or tablet into a powerful command center - giving you complete control, instant insights, and the freedom to inspect from anywhere.

Some Key Advantages

REMOTE LIVE STREAM

Broadcast your inspection in real time to colleagues or supervisors anywhere in the world.

FULL CAMERA CONTROL

Adjust settings, capture footage, and command your camera effortlessly from your smart device.

PLUME COLORIZATION

Enhance visibility and detect leaks faster with intuitive colored gas plumes.

QUANTIFICATION

Measure emissions with confidence and turn data into actionable decisions.

THE FUTURE OF OPTICAL GAS IMAGING - RIGHT IN YOUR HANDS.
